

Sometimes we can all benefit from some inspiration...

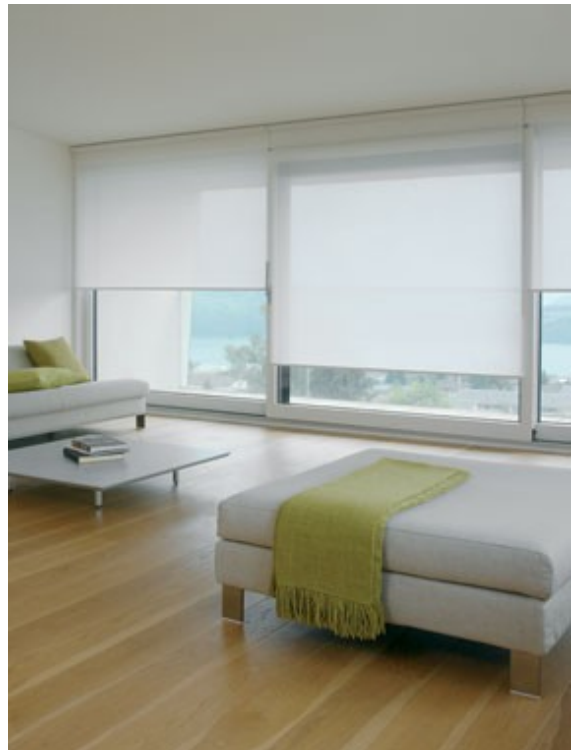

## Specialists in Electric Curtain Track and Blind Systems

Calico Interiors have created the perfect solution to all your automation needs.

Our aim is to provide the optimum choice of window solutions - providing a full bespoke service to architects, designers and clients

Electrically operated curtain tracks and blinds are ideal for very high windows, or those that are out of reach. They can also be essential for audio visual and conference rooms.

Calico Interiors can work in partnership with your electrical contractors, lighting specialists and home automation companies to ensure that you receive the best possible solution.
